Serverless Future

Cloud Compile
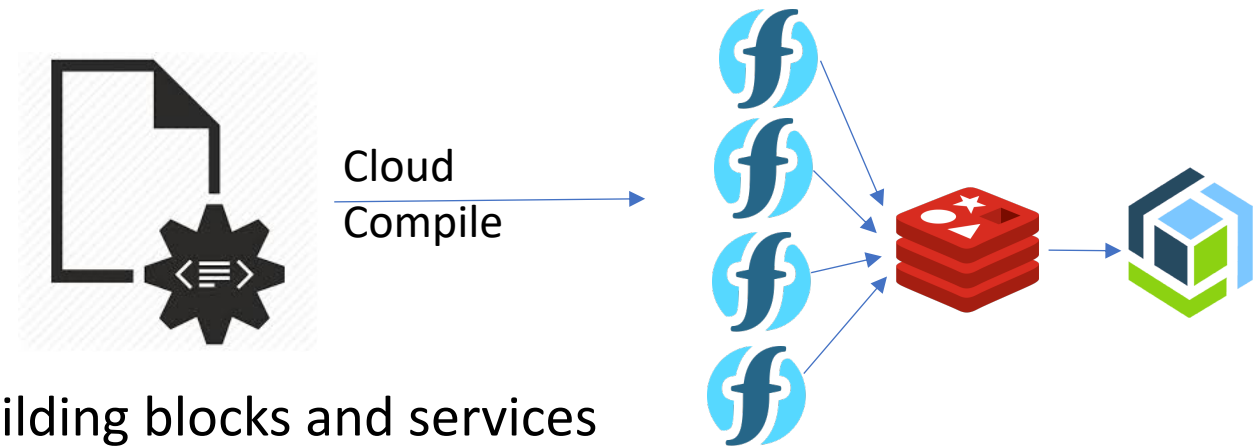

- Three years:
  - Cloud providers offer the necessary building blocks and services
    - Many settings start the transition to cloud native/serverless services (Data Analytics, Web, Mobile)
- Five years
  - **Standardization**: Serverless services become transparent from the Cloud provider
  - **Universal Compile to the Cloud**
  - No longer called serverless !! Put your new exciting buzzword here !

- Ten years
  - Serverless Skynet, humanless computing (cancel* humans in computing)
    - Humans are the reason of most computing problems
